REVIEW – 2009

# The Clickbank Code Review ~ Your Blueprint To \$48K Monthly Passive Income

---

[The Clickbank Code](#), a new video course from Michael Jones, promises to hand you his exact system for making over \$48,000 every single month from Clickbank, is it true or just a bunch of hype? I've purchased the product and if you're looking for an honest review, you'll want to read this article.

## ***What is The Clickbank Code?***

In a nutshell, it's a step-by-step video course that teaches people how to make five figure profits each month using Clickbank. The entire training series has a total of 28 videos. It's very suitable for the newbies as well those who still struggle to make money online. The instructions, sounds and images of the videos are very clear and easy to follow.

The 28 videos are grouped into 6 main modules. Below is the summary of some of the lessons covered in [The Clickbank Code](#).

## **Module #1 – Making a KILLING as an Affiliate**

This module will prepare you to become a super affiliate. Everything you need to know about Clickbank and online marketing is covered. There are 6 videos in this module, particularly pay good attention on the last video as Michael teaches you how to pick the best-selling products. This is key to making some EASY profits.

## **Module #2 – Powerful Keyword Research**

There are only 2 videos in this module but I urge you NOT to skip them even though if you already know how to do keyword research. The author teaches many covert keyword research strategies and techniques that you can only learn from an experienced marketer.

## **Module #3 – It's All About The Offer**

This is another module that I've learned a lot from. It consists of 6 videos showing you step-by-step how to set up your offers that not many people can refuse. You'll also learn how to set up landing pages with mission objectives, how to do pre-selling and how to avoid Google SLAP.

## **Module #4 – The Clickbank Code Ways of Generating Buyers on Demand**

This module has 4 videos, it shows you how to quickly test whether the keywords you pick are going to be generating sales for you. Using this system, you can quickly know which keywords are the winners and which are the losers. After going through this module, you'll be able to quickly separate the good performing keywords from the bad ones. This can save you a lot of time and money doing trials and errors.

## **Module #5 – Article What?**

This module is about bum marketing using articles. If you understand article marketing, you should be familiar with the methods taught here. There are 4 videos in this module showing you everything you need to know to generate targeted traffic by writing articles. Michael teaches one black hat tactic in this module but I don't recommend you to use it because this tactic only works in a very specific niche and can get your account being DISABLED as well. So please ignore it!

## **Module #6 – Killer FREE + PAID Traffic Tactics ~ The Ultimate Clickbank Code In Action**

I learn a lot of new stuffs in this module, there are 6 videos here. I like how Michael teaches how to dominate the search engines by merging the power of SEO and PPC. Personally, I find the covert strategies and techniques taught in these videos are worth more than the full cost of the product.

## ***Can you really earn \$48K a month?***

Well, if you're just getting started in internet marketing, it's unlikely that you can achieve \$48K a month. Because building a successful Internet business needs some time. **If you're new in the game, I suggest you aim at making \$100 a day first, that's \$3000 a month.** If you follow the step-by-step instructions outlined in the Clickbank Code, **it's highly likely that you can reach \$100 a day.** After that, you can scale up your earning. So yes, whilst possible it is a little unlikely to happen quickly if you are relatively new to the game.

What I would say though, is that you will recover your investment quickly . and everything from there on is shear profit.

### **Conclusion:**

[The Clickbank Code](#) is a high-quality video course for those who want a step-by-step blueprint for building a long-lasting and profitable online business. Michael Jones is very knowledgeable and fully understands the craft of internet marketing and his subject detail is very helpful for those who are newer to online marketing. However, some time and effort are involved in learning the ropes. You need to be patient and consistent with your effort . but if you are, very good profits will be made with [The Clickbank Code](#) . [Michael Jones is proof of that!](#)
